Profile

I hold a bachelor's degree in photography. I have been keen on various fields of visual art since I was 12. As a result why I decided to take my high school diploma in arts. Due to the fact that Photography and the history of arts have been my passions since then, I chose photography as my university major. Recently, I graduated as a top student from the university of Tehran. Besides my university studies, I participated in two exhibitions at the university of Tehran. In addition, I was chosen to cooperate with international universities and exhibitions. I am always searching for opportunities to work hard and gain more experience in my passion. Now, I am looking for a post-graduate position in order to expand my knowledge and gain more experience in visual and contemporary arts.
